

It's a book, it's a box, it's BOTH!

YNK what you can make with an old book.

1. Remove all the pages from a standard size hardcover adult fiction. You can just rip out sections or you can use an exacto knife/box cutter to score the binding, then rip! NOTE: You can really use any size book, but you will need to adjust your measurements accordingly.
2. Decorate the book cover using paper and other materials you have handy (buttons, beads, stickers, ribbon).
3. Cut two pieces of 1" foam core 7" long. I used an exacto knife/box cutter.
4. Cut two pieces of 1" foam core 4" long.
5. Glue these into place on the inside back cover using Elmer's Glue in order to create a frame inside your book. See diagram below.
6. Rubber band the book together while the glue sets.
7. You may glue flat marbles to each of the four corners of the outside back cover to create feet for your box.
